

The Beano Presents Dennis The Menace And Gnasher

A 1980s Childhood

What it was like to grow up in 1980s Britain, from the Cold War to Duran Duran. This book combines memories, original documents and photos from that time.

Representing Acts of Violence in Comics

This book is part of a nuanced two-volume examination of the ways in which violence in comics is presented in different texts, genres, cultures and contexts. *Representing Acts of Violence in Comics* raises questions about depiction and the act of showing violence, and discusses the ways in which individual moments of violence develop, and are both represented and embodied in comics and graphic novels. Contributors consider the impact of gendered and sexual violence, and examine the ways in which violent acts can be rendered palatable (for example through humour) but also how comics can represent trauma and long lasting repercussions for both perpetrators and victims. This will be a key text and essential reference for scholars and students at all levels in Comics Studies, and Cultural and Media Studies more generally.

Teaching Through Texts

Drawing on many popular and literary texts, the contributors to this book write with enthusiasm about opportunities for creative teaching and learning, and provide many examples of good practice both inside and outside the Literacy Hour

The Protection and Conservation of Water Resources

This book is about water - in Britain, and in the world. It is about water resources, their conservation, protection of water quality for human consumption and aquatic ecosystems. Since the publication of the first edition in 1998, major political and regulatory changes have taken place; this book provides a clear and comprehensive update of conservation and water resource management issues in the UK over the past two decades, and – in an expansion of its original UK perspective – now includes examples of global best practice. The UK's 2003 adoption of the EU Water Framework Directive has had enormous implications for the conservation and management of our water resources. In 2016, with the UK's decision to leave the EU, the governance scene is entering upon an unpredictable future regarding its major water resource policies. *The Protection and Conservation of Water Resources*, Second edition provides a clear and comprehensive update of conservation and water resource management issues. Chapter 1 deals with sustainability and water policy, outlines the issues and challenges, and asks: what is integrated water management? Chapter 2 reviews water availability and sufficiency in Britain, while Chapter 3 explores the dynamic between institutions and legislative framework. Chapter 4 introduces the catchment approach, and chapters 5 and 6 explore the issues of sustaining bulk supply and the imperatives of climate change. Chapter 7 looks at the contemporary background to water quality issues, and Chapter 8 provides case studies of catchment problems, both urban and rural. Chapter 9 describes solutions in land use change, including technical fixes and their sustainability. Chapter 10 is concerned with emerging governance arrangements, and Chapter 11 takes a global view, looking at successful examples around the world to find positive lessons from Europe, north America and Australia.

Lady Bean and Family

Lady Bean and Family, the follow-up to Gerald and Usanna Stribling's Mr Cabbage and Family, is an in-depth exploration of the world of leguminous plants, presenting a blend of historical, botanical, and culinary perspectives. This book details the development of beans throughout history, examining their botanical structure, emphasizing their nutritional importance and even discussing their sometimes surprising cultural role. The authors share expert knowledge on various aspects of bean cultivation and storage, highlighting different methods of preservation and discussing the health benefits and diverse uses of beans. The narrative takes readers on a global journey, culminating in an extensive collection of recipes that showcase beans in various forms. From savoury snacks popular in the Americas to traditional soybean-based dishes from China and Japan, and even classic French culinary delights, the book provides a wide array of options for cooking enthusiasts and food lovers. Ideal for readers with an interest in food history, botany, and gastronomy, Lady Bean and Family is an informative resource that offers a comprehensive look at one of the world's most versatile and nutritious plant families.

Made in Scotland

'Made in Scotland' features the stories behind 36 household names that originated in Scotland. The initial success of these products depended not on plentiful funds, but on the traditional Scottish virtues of hard work, perseverance, integrity, courage and initiative.

The Comic Book as Research Tool

This book contributes to a growing body of work celebrating the visual methods and tools that aid knowledge transfer and welcome new audiences to social science research. Visual research methodological milestones highlight a trajectory towards the adoption of more creative and artistic media. As such, the book is dedicated to exploring the creative potential of the comic book medium, and how it can assist the production and communication of scientific knowledge. The cultural blueprint of the comic book is examined, and the unique structure and grammar of the form deconstructed and adapted for research support. Along with two illustrated research comics, Toxic Play and 10 Business Days, the book offers readers numerous comic-based illustration activities and creative visual exercises to support data generation, foster conversational knowledge exchanges, facilitate inference, analysis, and interpretation, while nurturing the necessary skills to illustrate and create research comics. The book engages a diverse audience and is an illuminating read for visual novices, experts, and all in-betweeners.

The Comics Journal

AS Media Studies has been specifically written to cover the requirements at AS level for each awarding body. It examines a comprehensive range of topics set by AQA and OCR and is organised using the WJEC format of 'Analysis of Media Forms', 'Representation and Reception' and 'Making Media Texts'. Linking theory to practice, this book has been designed to help students develop practical production skills, while giving a thorough and accessible introduction to the key principles, issues and debates of media studies.

AS Media Studies

A fascinating romp through the life of a broadcasting legend, Mike Read's autobiography offers an exciting insight into his three decades in showbiz. From ventures in radio, television and music, to tales of sport, romance and the royals, Mike writes with candour and humour in equal measure, including tangential stories of famous friends, near-death experiences and extraordinary happenings along the way. Recounting his stints as a Radio One DJ on the Breakfast Show, a prime-time television presenter on Pop Quiz, a co-founder of The Guinness Book of British Hit Singles and a jungle star on I'm a Celebrity ... Get Me Out of Here!, this high-energy journey encapsulates all aspects of the celebrity's vast and varied career. Mike has seized every

opportunity, whether in pop, poetry or politics, and continues to entertain audiences as a presenter on several major national radio networks. A story packed with scintillating anecdotes, witty observations, and nostalgic recollections, this is an autobiography that hits all the right notes.

Seize the Day

THE NO.1 SUNDAY TIMES BESTSELLER. A powerful, heart-warming and inspiring memoir from the UK's most famous and beloved vet, Professor Noel Fitzpatrick - star of the Channel 4 series *The Suprvet*. Growing up on the family farm in Ballyfin, Ireland, Noel's childhood was spent tending to the cattle and sheep, the hay and silage, the tractors and land, his beloved sheepdog Pirate providing solace from the bullies that plagued him at school. It was this bond with Pirate, and a fateful night spent desperately trying to save a newborn lamb, that inspired Noel to enter the world of veterinary science - and set him on the path to becoming *The Suprvet*. Now, in this long-awaited memoir, Noel recounts this often-surprising journey that sees him leaving behind a farm animal practice in rural Ireland to set up Fitzpatrick Referrals in Surrey, one of the most advanced small animal specialist centres in the world. We meet the animals that paved the way, from calving cows and corralling bullocks to talkative parrots and bionic cats and dogs. Noel has listened to the many lessons that the animals in his care have taught him, and especially the times he has shared with his beloved Keira, the scruffy Border Terrier who has been by Noel's side as he's dealt with the unbelievable highs and crushing lows of his extraordinary career. As heart-warming and life-affirming as the TV show with which he made his name, *Listening to the Animals* is a story of love, hope and compassion, and about rejoicing in the bond between humans and animals that makes us the very best we can be.

New Society

Illustrated throughout, this fact-filled and funny encyclopedia reveals the best of British comics, discussing how these quirky and colourful creations have shaped the lives of British children since the seventies.

Listening to the Animals: Becoming The Suprvet

The one essential guide for comic book fans everywhere.

The Ultimate Book of British Comics

A new edition of the who's who of over 1,400 fictional characters whose names are sometimes so familiar it's difficult to remember they're imaginary. Included in the biographical parade is Ben Casey, Casper, and Fitzwilliam Darcy, a compendium of high, low, and no brow at all, each exactly recorded with a snippet of biographical anecdote. The reference is as equally useful for scholarly work as it is for killing time in aimless pursuits of information. Distributed by Ashgate. Annotation copyright by Book News, Inc., Portland, OR

Imaginary People

The Beano is Britain's longest-running and best-loved comic. Since 1938 it has brought thrills and laughter to generation after generation of children, seeing the young and young-at-heart through World War 2, the social changes of the 1950s and 60s and on into a new millennium. How has the comic evolved since its early days? How many of the classic characters and their stories do you remember? What are the important changes that have happened through the years, why have they happened and why has The Beano survived when all the other comics have folded? Every child in the UK since the 1950s has known Dennis the Menace, the Bash Street Kids, Minnie the Minx and Roger the Dodger, but how many know the writers and artists who created these iconic comic characters? How do they write the scripts week after week? Where did the inspiration come from? How did the artists come to work for this Great British institution? This is the story of the Beano Comic, told in the words of the people who made it, going back to the dark, harsh days of the 1930s and continuing through to the present day. A unique insight into the country's most beloved comic.
