COYOTE

COYOTE is an American sex workers' rights organization. Its name is a backronym for Call Off Your Old Tired Ethics, a reflection of the fact that sex work

COYOTE is an American sex workers' rights organization. Its name is a backronym for Call Off Your Old Tired Ethics, a reflection of the fact that sex work tends to be stigmatized primarily because of society-imposed standards of ethics. COYOTE's goals include the decriminalization (as opposed to the legalization) of prostitution, pimping and pandering, as well as the elimination of social stigma concerning sex work as an occupation. Its work is considered part of the larger sex worker movement for legal and human rights.

COYOTE provides counseling and legal referrals for sex workers, and assistance in leaving sex work for different careers.

Coyote

The coyote (Canis latrans), also known as the American jackal, prairie wolf, or brush wolf, is a species of canine native to North America. It is smaller

The coyote (*Canis latrans*), also known as the American jackal, prairie wolf, or brush wolf, is a species of canine native to North America. It is smaller than its close relative, the gray wolf, and slightly smaller than the closely related eastern wolf and red wolf. It fills much of the same ecological niche as the golden jackal does in Eurasia; however, the coyote is generally larger.

The coyote is listed as least concern by the International Union for Conservation of Nature, due to its wide distribution and abundance throughout North America. The species is versatile, able to adapt to and expand into environments modified by humans; urban coyotes are common in many cities. The coyote was sighted in eastern Panama (across the Panama Canal from their home range) for the first time in 2013....

Coyote attack

Coyote attacks are events where coyotes attack humans. While these attacks are uncommon and rarely cause serious injuries, they have been increasing in

Coyote attacks are events where coyotes attack humans. While these attacks are uncommon and rarely cause serious injuries, they have been increasing in frequency, especially in California. Although media reports generally identify the animals as simply "coyotes", some attackers in northeast North America may be hybrids known as coywolves.

A summary of the reported incidents below, as of September 16, 2023:

Coyote (mythology)

Coyote is a mythological character common to many cultures of the Indigenous peoples of North America, based on the coyote (Canis latrans) animal. This

Coyote is a mythological character common to many cultures of the Indigenous peoples of North America, based on the coyote (*Canis latrans*) animal. This character is usually male and is generally anthropomorphic, although he may have some coyote-like physical features such as fur, pointed ears, yellow eyes, a tail and blunt claws. The myths and legends which include Coyote vary widely from culture to culture.

The role Coyote takes in traditional stories shares some traits with the Raven figure in other cultures.

Coyote Ugly

Coyote Ugly is a 2000 American comedy-drama film based on the Coyote Ugly Saloon. It was directed by David McNally, produced by Jerry Bruckheimer and Chad

Coyote Ugly is a 2000 American comedy-drama film based on the Coyote Ugly Saloon. It was directed by David McNally, produced by Jerry Bruckheimer and Chad Oman, and written by Gina Wendkos. Set at the titular drinking establishment in New York City, the film stars Piper Perabo in her breakthrough role, Adam Garcia, Maria Bello, Melanie Lynskey, and John Goodman.

The film received mostly negative reviews but was a box office success nonetheless, grossing \$113 million worldwide. The film has become a cult classic over the years. In 2020, Tyra Banks said that she had been lobbying the original production team for a sequel for years.

Eastern coyote

The eastern coyote (Canis latrans var.) is a wild North American canine hybrid with both coyote and wolf parentage. The hybridization likely first occurred

The eastern coyote (Canis latrans var.) is a wild North American canine hybrid with both coyote and wolf parentage. The hybridization likely first occurred in the Great Lakes region, as western coyotes moved east. It was first noticed during the early 1930s to the late 1940s, and likely originated in the aftermath of the extirpation of the gray wolf and eastern wolf in southeastern Ontario, Labrador and Quebec; this allowed coyotes to colonize the former wolf ranges, and mix with the remnant wolf populations. This hybrid is smaller than the eastern wolf and holds smaller territories, but is larger and holds more extensive home ranges than the typical western coyote.

Wile E. Coyote and the Road Runner

Wile E. Coyote and the Road Runner are a duo of cartoon characters from the Looney Tunes and Merrie Melodies series of animated cartoons, first appearing

Wile E. Coyote and the Road Runner are a duo of cartoon characters from the Looney Tunes and Merrie Melodies series of animated cartoons, first appearing in 1949 in the theatrical short Fast and Furry-ous. In each film, the cunning, devious and constantly hungry coyote repeatedly attempts to catch and eat the roadrunner, but is humorously unsuccessful. Instead of using animal instinct, the coyote deploys absurdly complex schemes and devices to try to catch his prey. They comically backfire, with the coyote invariably getting injured in slapstick fashion. Many of the items for these contrivances are mail-ordered from the Acme Corporation and other companies. TV Guide included Wile E. Coyote in its 2013 list of "The 60 Nastiest Villains of All Time".

The characters were created for Warner Bros...

Coyote (chassis)

Coyote was a brand of racing chassis designed and built for the use of A. J. Foyt's race team in USAC Championship car racing including the Indianapolis

Coyote was a brand of racing chassis designed and built for the use of A. J. Foyt's race team in USAC Championship car racing including the Indianapolis 500. It was used from 1966 to 1983 with Foyt himself making 141 starts in the car, winning 25 times. George Snider had the second most starts with 24. Jim McElreath has the only other win with a Coyote chassis.

Foyt drove a Coyote to victory in the Indy 500 in 1967 and 1977.

With Foyt's permission, fellow Indy 500 champion Eddie Cheever's Cheever Racing began using the Coyote name for his new Daytona Prototype chassis, derived from the Fabcar chassis design that he had purchased the rights to in 2007.

Today, Foyt runs his team using the old Coyote logo on his race cars.

Coyote Valley Reservation

The 70-acre (280,000 m2) Coyote Valley Reservation in Redwood Valley, California is home to about 170 members of the Coyote Valley tribe of the Native

The 70-acre (280,000 m2) Coyote Valley Reservation in Redwood Valley, California is home to about 170 members of the Coyote Valley tribe of the Native American Pomo people, who descend from the Shodakai Pomo. They are a federally recognized tribe, who were formerly known as the Coyote Valley Band of Pomo Indians of California.

It is also the location of the Coyote Valley Shodakai Casino.

The Coyote Valley tribe were formerly located a few miles to the southeast, at the Coyote Valley Rancheria. The Rancheria site was flooded by the construction of the Coyote Dam, creating Lake Mendocino, and the tribe relocated to the current reservation.

They are a member of the InterTribal Sinkyone Wilderness Council which is a consortium of Northern California tribal nations focused on environmental and...
